ANTI-AGING LINE

DAY ANTI-AGING FACE CREAM-SERUM

BENEFITS: REGENERATION / ANTI-AGING / HYDRATION

A lightweight, **multifunctional cream-serum** for daily skincare that combines intensive hydration with smoothing and anti-aging benefits. Its carefully selected blend of active ingredients helps protect the skin against everyday environmental stressors while supporting a youthful, radiant appearance throughout the day.

Key active ingredients:

- **Sharohyal Matrix** – an advanced moisturizing complex that helps maintain optimal skin hydration while improving smoothness and elasticity.
- **SYN®-TC** – a modern peptide active that supports the care of skin showing signs of aging. It helps improve skin firmness and promotes a more youthful appearance.
- **Clitoria ternatea Flower Extract** – a natural source of antioxidants that helps protect the skin against oxidative stress and supports a healthy, radiant complexion.
- **Trehalose** – an effective moisturizing ingredient known for its ability to help prevent moisture loss. It helps maintain skin comfort and supports the skin's natural resistance to dryness.
- **Squalane** – a lightweight emollient with a high affinity for the skin. It supports the skin's hydrolipidic barrier, smooths the skin and leaves it soft and silky without a heavy or greasy feel.

The cream-serum absorbs quickly, leaving the skin smooth, fresh and naturally radiant. It is ideal for daily care for those seeking an effective combination of anti-aging, regenerating and moisturizing benefits.

Suitable for all skin types, particularly dehydrated, tired-looking skin and skin showing the first or visible signs of aging.

ANTI-AGING FACE SERUM

BENEFITS: REGENERATION / ANTI-AGING / HYDRATION

Advanced Skin Care Serum, developed for daily support of the skin's natural regenerative processes and to help maintain a youthful-looking complexion. A carefully selected blend of active ingredients helps improve the overall condition of the skin, restoring comfort, elasticity and a natural, healthy glow.

Key active ingredients:

- **Sharohyal Matrix** – a complex of moisturizing ingredients that helps maintain optimal skin hydration. It helps smooth the skin's surface and enhance the feeling of firmness.
- **SYN®-TC** – an advanced peptide ingredient designed to support the appearance of mature skin. It helps improve skin elasticity and reduce the appearance of signs of aging.
- **Clitoria ternatea Flower Extract** – rich in natural antioxidants, it helps protect the skin from the negative effects of environmental factors and supports a radiant-looking complexion.
- **Prickly Pear Seed Oil** – valued for its nourishing properties. It provides the skin with beneficial fatty acids, supports skin regeneration and helps restore softness and comfort.

The lightweight, pleasant formula makes the serum ideal for both morning and evening skincare routines, leaving the skin smooth, nourished and naturally radiant.

Suitable for all skin types, especially dry, dehydrated skin and skin showing the first signs of aging.

ANTI-AGING OVERNIGHT FACE CREAM-MASK

BENEFITS: REGENERATION / ANTI-AGING / HYDRATION

This rich **overnight cream-mask** has been developed to support the skin's natural renewal processes during sleep. A combination of advanced active ingredients and nourishing substances helps improve the overall condition of the skin, restoring softness, elasticity and a radiant appearance by morning.

Key active ingredients:

- **Sharohyal Matrix** – an intensive moisturizing complex that helps maintain optimal skin hydration and supports a smoother skin texture.
- **SYN®-TC** – an innovative peptide ingredient designed to support the care of mature skin. It helps improve skin firmness and elasticity while supporting the reduction of visible signs of aging.
- **Clitoria ternatea Flower Extract** – rich in natural antioxidant compounds, it helps protect the skin against oxidative stress and supports a healthy, radiant appearance.
- **Ectoin** – an ingredient known for its protective and moisturizing properties. It helps strengthen the skin's hydrolipid barrier and supports its resilience against external stressors.

In the morning, the skin appears more rested, smooth and radiant. The rich, comforting formula makes the cream-mask ideal as the final step of an evening skincare routine, providing comprehensive overnight care and supporting the skin's natural regeneration processes.

Particularly recommended for dry, dehydrated and stressed skin in need of regeneration, as well as skin with visible signs of aging.

HYDRATING SKINCARE LINE

MOISTURIZING FACE CREAM

EFFECT: HYDRATION / ELASTICITY / SMOOTHING

A **daily face cream** designed for skin in need of intensive hydration, smoothing and support for its natural elasticity. Advanced active ingredients help maintain optimal skin hydration, strengthen the skin's protective barrier and provide long-lasting comfort and softness.

Key active ingredients:

- **Hydrosella™** – an innovative “water booster” ingredient that supports the skin's ability to retain water, providing long-lasting hydration and a comfortable feeling throughout the day.
- **Marsturizer™** – an advanced moisturizing complex that helps maintain the skin's water balance, strengthens its protective barrier and helps reduce transepidermal water loss (TEWL).
- **Hyaluronic Acid** – intensely binds water in the epidermis, providing an immediate moisturizing effect. It helps smooth fine lines associated with dehydration and improves skin elasticity.
- **Trehalose** – a natural ingredient with moisturizing and protective properties. It supports optimal skin hydration, helps protect the skin against environmental stressors and reduces the feeling of tightness.
- **Peach Seed Oil** – rich in nourishing compounds, it softens and smooths the skin, supporting its natural lipid barrier and helping to retain moisture in the epidermis.

The lightweight, pleasant formula absorbs quickly, leaving the skin smooth, soft and well hydrated. The cream is ideal for daily skincare, providing the skin with a fresh and healthy appearance.

Recommended for all skin types, particularly dry, dehydrated skin and skin requiring improved elasticity and comfort.

MOISTURIZING FACE SERUM

EFFECT: HYDRATION / ELASTICITY / SMOOTHING

A concentrated **moisturizing serum** designed for skin in need of immediate and long-lasting hydration. Its advanced blend of active ingredients helps restore optimal skin hydration, supports the skin's natural protective barrier and provides a feeling of comfort and softness throughout the day.

Key active ingredients:

- **Marsturizer™** – an advanced moisturizing complex that supports the skin's water balance, strengthens its protective functions and helps reduce transepidermal water loss (TEWL).
- **Hyaluronic Acid** – intensely binds water in the epidermis, providing a quick hydrating and smoothing effect. It helps improve skin elasticity and reduce the appearance of fine lines associated with dehydration.
- **Trehalose** – an effective moisturizing and protective ingredient that helps retain water in the epidermis, supports protection against environmental stressors and enhances skin comfort.
- **Peach Seed Oil** – a lightweight, nourishing emollient that softens and smooths the skin, supporting optimal hydration levels and helping to reduce moisture loss.

The lightweight, fast-absorbing formula leaves the skin pleasantly hydrated, smooth and naturally radiant. The serum is ideal as part of a daily skincare routine, enhancing the effects of a face cream and providing long-lasting comfort.

Recommended for all skin types, particularly dry, dehydrated, rough and environmentally stressed skin.

ACC VITAMIN C SKINCARE LINE
CHEMICALS

WATER-BASED VITAMIN C SERUM

EFFECT: ANTIOXIDANT PROTECTION / EVEN SKIN TONE / SMOOTHING

A lightweight **water-based serum with vitamin C**, designed for daily skincare of skin in need of hydration, improved skin tone and protection against oxidative stress. A combination of advanced active ingredients helps restore a fresh, radiant and healthy-looking complexion.

Key active ingredients:

- **Beauty Plum One-F™** – an ingredient rich in polyphenols, flavonoids and other compounds with antioxidant properties. It supports protection against oxidative stress, helps maintain a youthful appearance and supports the natural processes responsible for maintaining skin firmness and elasticity.
- **Realcalm® (Hyaluronic Acid)** – intensely hydrates the skin by binding and retaining water in the epidermis. It helps improve elasticity and smoothness while reducing the feeling of dryness and tightness.
- **3-O-Ethyl Ascorbic Acid** – a stable form of vitamin C that supports the reduction of the appearance of pigmentation, helps even out skin tone and supports the natural processes responsible for maintaining skin firmness. It also provides antioxidant protection against free radicals.
- **Niacinamide** – a multifunctional ingredient that supports the proper functioning of the skin's protective barrier. It helps reduce moisture loss, even out skin tone and promote a healthy, fresh appearance.

The lightweight, water-based formula absorbs quickly, leaving the skin feeling fresh, smooth and naturally radiant. The serum is ideal for daily skincare, helping support skin exposed to environmental stressors, fatigue and loss of radiance.

Recommended for all skin types, particularly dull, dehydrated skin with uneven skin tone and the first signs of aging.

EMULSION VITAMIN C SERUM

EFFECT: ANTIOXIDANT PROTECTION / EVEN SKIN TONE / SMOOTHING

An advanced **emulsion serum with vitamin C**, designed for skin in need of brightening, improved skin tone and effective protection against oxidative stress. Carefully selected active ingredients help restore a radiant appearance, support skin firmness and protect against the negative effects of environmental stressors.

Key active ingredients:

- **3-O-Ethyl Ascorbic Acid** – a stable form of vitamin C that helps reduce the appearance of pigmentation, even out skin tone and support the natural processes responsible for maintaining skin firmness. It also acts as a powerful antioxidant.
- **BOREALINE® AURORA** – an innovative active ingredient that supports the reduction of uneven pigmentation and the appearance of dark spots. It helps enhance skin radiance, improve skin clarity and promote a healthy, luminous complexion.
- **Coenzyme Q10 (Ubiquinone)** – an effective antioxidant that helps protect the skin against oxidative stress caused by UV radiation and environmental pollution. It helps protect collagen and elastin fibers, supporting the maintenance of a youthful-looking complexion.
- **Ascorbyl Tetraisopalmitate** – an advanced lipid-soluble form of vitamin C that supports improved skin firmness and helps reduce the appearance of pigmentation, contributing to a more even skin tone.
- **Niacinamide** – a multifunctional ingredient that supports the skin's natural protective barrier. It helps even out skin tone, reduce moisture loss and maintain a healthy-looking complexion. It also contributes to improved skin comfort, particularly for problematic and blemish-prone skin.

The lightweight emulsion formula provides a comfortable application and blends seamlessly into the skin, leaving it smooth, hydrated and naturally radiant. The serum is ideal for daily skincare of skin lacking vitality, with uneven skin tone and the first signs of aging.

Recommended for all skin types, particularly dull, tired-looking skin with pigmentation and skin in need of antioxidant protection.

VITAMIN C CREAM

EFFECT: ANTIOXIDANT PROTECTION / EVEN SKIN TONE / BRIGHTENING

A vitamin C cream designed for daily skincare of skin in need of brightening, improved skin tone and support in combating visible signs of aging. An advanced combination of stable forms of vitamin C, coenzyme Q10 and niacinamide helps restore a radiant appearance, improve skin firmness and support protection against oxidative stress.

Key active ingredients:

- **3-O-Ethyl Ascorbic Acid** – a stable form of vitamin C that helps reduce the appearance of pigmentation and even out skin tone. It supports the natural processes of collagen synthesis, contributing to improved skin firmness and elasticity. It also provides antioxidant benefits, helping to protect against free radicals.
- **Ascorbyl Tetraisopalmitate** – an advanced lipid-soluble form of vitamin C that supports skin brightening and improved skin firmness. It helps restore a healthy glow and a more even-looking complexion.
- **Coenzyme Q10 (Ubiquinone)** – a powerful antioxidant that helps protect the skin against the negative effects of environmental factors such as UV radiation and pollution. It helps protect collagen and elastin fibers, supporting the maintenance of a youthful-looking complexion.
- **Niacinamide** – a multifunctional ingredient that supports the proper functioning of the skin's protective barrier. It helps reduce moisture loss, even out skin tone and support sebum regulation, leaving the skin feeling fresh, smooth and comfortable.

The rich yet comfortable cream formula provides the skin with daily care, helping maintain optimal hydration, radiance and a healthy appearance. Regular use supports protection against premature signs of aging and helps restore the skin's natural glow.

Recommended for all skin types, particularly dull skin with uneven skin tone, the first signs of aging, and skin exposed to environmental stressors and oxidative stress.

ACC PIELĘGNACJA DŁONI
CHEMICALS

ECONOMIC HAND CREAM

EFFECT: HYDRATION / SOOTHING / REGENERATION

A **hand cream** designed for the daily care of dry, rough hands in need of regeneration. The rich formula, based on moisturizing, nourishing and protective ingredients, helps restore softness, smoothness and comfort to the hands from the very first application.

Key active ingredients:

- **D-Panthenol** – an ingredient known for its soothing and regenerative properties. It supports the renewal of the epidermis and helps reduce feelings of dryness and roughness, leaving the hands soft and soothed.
- **Glycerin** – an effective humectant that attracts and binds water in the epidermis, supporting long-lasting skin hydration. It helps protect the hands from dryness and loss of comfort.
- **Shea Butter** – a rich nourishing ingredient with moisturizing and smoothing properties. It forms a protective film on the skin's surface, helping to reduce moisture loss and supporting protection against the adverse effects of external factors.
- **Macadamia Nut Oil** – a valuable source of fatty acids that support the skin's natural protective barrier. It helps smooth and soften the hands, providing flexibility and a healthy appearance without leaving a heavy feeling.

The cream intensely moisturizes, nourishes and supports the regeneration of the skin on the hands, leaving them soft, smooth and pleasant to the touch. The comfortable formula absorbs quickly, providing daily protection against dryness and roughness.

Recommended for the daily care of all types of hand skin, particularly dry, dehydrated skin exposed to frequent washing and the effects of adverse external factors.

NOURISHING-RICH HAND CREAM

EFFECT: HYDRATION / SOOTHING / REGENERATION

A rich hand cream designed for intensive care of dry, rough and nutrient-deprived hand skin. Carefully selected active ingredients help restore softness, elasticity and long-lasting comfort while protecting the skin against moisture loss and the adverse effects of external factors.

Key active ingredients:

- **D-Panthenol** – supports the skin's natural regenerative processes, helps soothe feelings of dryness and roughness, and restores comfort to the hands. Particularly recommended for the care of skin prone to dryness and irritation.
- **Trehalose** – an ingredient with moisturizing and protective properties that helps maintain an appropriate level of skin hydration. It supports the protection of cells against the adverse effects of environmental factors such as wind, frost and dry air.
- **Glycerin** – an effective humectant that binds water in the epidermis, helping maintain optimal skin hydration. It supports smoother hands and helps protect them against dryness.
- **Shea Butter** – a rich emollient that intensely nourishes, moisturizes and softens the skin. It forms a protective film on the skin's surface, helping reduce moisture loss and supporting long-lasting comfort.
- **Olea Europaea (Olive) Fruit Oil** – a natural oil rich in fatty acids and antioxidants, including vitamin E. It helps strengthen the skin's protective barrier, smooths the skin and leaves it pleasantly soft and supple.

The rich, nourishing formula provides intensive care for the hands, leaving them smooth, soft and comfortably moisturized. The cream helps protect the skin against dryness and supports its regeneration every day.

Recommended for the daily care of dry, very dry and rough skin, particularly skin exposed to adverse weather conditions and frequent contact with detergents and disinfectants.

PREMIUM HAND CREAM

EFFECT: HYDRATION / SOOTHING / REGENERATION

A premium hand cream with ceramides designed for intensive regeneration, restoration and protection of the skin on the hands. The advanced formula, based on ceramides as well as moisturizing and nourishing ingredients, helps restore comfort, elasticity and a healthy appearance while supporting the skin's natural protective mechanisms.

Key active ingredients:

- **D-Panthenol** – supports epidermal regeneration, helps soothe irritation and reduce feelings of dryness and roughness. It leaves the hands soft, smooth and comfortable.
- **Ceramide Complex** – ingredients naturally found in the skin's protective layer that help restore the skin's hydrolipid barrier and reduce moisture loss. They support regeneration, improve skin elasticity and help protect it against the adverse effects of external factors.
- **Glycerin** – effectively binds water in the epidermis, providing long-lasting hydration. It helps maintain optimal skin hydration, leaving the hands smooth and pleasant to the touch.
- **Shea Butter** – a rich nourishing ingredient with moisturizing and softening properties. It forms a protective film on the skin's surface, helping maintain an appropriate level of hydration and protecting against dryness.

The rich, regenerating formula helps restore softness, smoothness and a healthy appearance to the hands. Regular use supports the restoration of the skin's protective barrier, improves its elasticity and provides long-lasting comfort even for very demanding hands.

Recommended for the daily care of dry, dehydrated and rough skin, as well as skin exposed to frequent washing, detergents and adverse weather conditions.

ACC
CHEMICALS

MEN'S LINE

VITAMIN C FACE CREAM

EFFECT: HYDRATION / ELASTICITY / ANTIOXIDANT PROTECTION

A modern face cream for men that combines intensive hydration with antioxidant benefits and care that supports a youthful-looking complexion. The lightweight, fast-absorbing formula helps maintain an appropriate level of skin hydration, improves skin comfort and supports its protection against everyday environmental stressors.

Key active ingredients:

- **Vitamin C** – a powerful antioxidant that helps protect the skin against free radicals. It supports a radiant complexion, helps even out skin tone and gives the skin a fresh and energized appearance.
- **Hydrosella™** – an ingredient derived from Australian hibiscus that supports the skin's ability to retain water and helps strengthen the epidermis' natural protective barrier. It provides long-lasting hydration and comfort.
- **Hyaluronic Acid** – effectively binds water in the epidermis, providing intensive hydration. It helps improve skin elasticity and smooths fine lines associated with dehydration.
- **Trehalose** – supports the maintenance of an appropriate level of hydration, helps protect skin cells against stress associated with water loss and enhances skin comfort throughout the day.
- **Peach Seed Oil** – nourishes, softens and smooths the skin, supporting its natural lipid barrier and helping reduce moisture loss.

The lightweight cream formula absorbs quickly and leaves no greasy film, making it ideal for the daily care of men's skin. It leaves the skin hydrated, smooth and comfortable throughout the day.

Recommended for all skin types, particularly dehydrated skin exposed to environmental stressors.

EMULSION SERUM WITH VITAMIN C

EFFECT: HYDRATION / ELASTICITY / ANTIOXIDANT PROTECTION

Advanced emulsion serum specially developed to meet the needs of men's skin. A combination of two modern forms of vitamin C, antioxidant ingredients, and complexion-evening actives helps restore a fresh, healthy appearance while protecting the skin from the damaging effects of environmental stressors.

Key active ingredients:

- **3-O-Ethyl Ascorbic Acid** – a stable form of vitamin C that helps reduce the appearance of pigmentation, even out skin tone, and support the natural processes responsible for maintaining skin firmness. It also provides antioxidant protection against free radicals.
- **BOREALINE® AURORA** – an innovative active ingredient that supports a more even complexion. It helps reduce the appearance of pigmentation, brightens the skin, and enhances its natural radiance. It also helps reduce the appearance of redness and supports skin comfort.
- **Coenzyme Q10 (Ubiquinone)** – a powerful antioxidant that helps protect the skin against oxidative stress caused by UV radiation and environmental pollution. It supports the protection of collagen and elastin fibres, helping maintain a youthful-looking appearance.
- **Ascorbyl Tetraisopalmitate** – a modern, well-tolerated form of vitamin C that supports skin radiance, firmness, and an even complexion.
- **Niacinamide** – a multifunctional ingredient that supports the skin's natural protective barrier. It helps reduce moisture loss, even out skin tone, regulate sebum production, and improve the overall condition of the skin.

The lightweight emulsion formula absorbs quickly without leaving a greasy film. The serum is ideal as part of a daily skincare routine for men, providing skin with protection, comfort, and a radiant appearance every day.

Suitable for all skin types, particularly dull, tired-looking skin exposed to environmental stressors and skin with an uneven complexion.
